*world*

fly past in a  
*whoosh!*

## CJ1+ More speed, more range and climbs higher.

The Cessna Citation CJ1+ is equipped with some of the world's most desirable avionics, fully integrated into one seamless, intuitive flight deck. And the FADEC systems simplify aircraft operation and reduce pilot workload.

At 389 knots, the CJ1+ cruises as much as 240 km/h faster than the turboprop it typically replaces. In just 28 minutes, powerful engines propel it directly to 41,000 feet (12,496m) - far above most weather and nearly 3,200 metres higher than an old-technology turboprop will ever go.

The CJ1+ is the ultimate culmination of everything a business jet of this calibre should be. The utmost in performance, comfort and technological advancement at a price that makes it great value.

### 2008 Cessna Citation CJ1+ Serial Number 525-0670

CJs have always outperformed turboprops while being less complicated to fly. That's why they're certified for single-pilot operation. And because FADEC is standard on the CJ1+, pilot workload is reduced and operation becomes even easier.

The CJ1+ simply takes performance and ease of operation to a whole new level.

This new Cessna Citation CJ1+ arrived in Australia recently and offers tremendous value with the right combination of speed, payload, range and comfort.

Six passenger interior features a forward side-facing seat and four main chairs in double club arrangement with folding tables with leather inserts. The belted flushing toilet serves as the sixth seat.

This aircraft is on CESCO, ProParts spares and Power Advantage engine programs. The cabin is furnished with grey leather upholstery, grey carpet and wood grain cabinetry.
