

Combine range with
speed

Beechjet 400A For Sale

The Beechjet 400A boasts the best cabin in its class, and with a 440 knot cruise speed it presents excellent value to the astute buyer, particularly as it comes with established charter clientele.

The interior was refreshed in 2008, revitalising the carpet, re-dyed seat leather and buffed and polished woodwork. It has a seven passenger configuration with a mid-cabin four place club setting plus a belted toilet. The interior colour scheme has tan leather cabin seats with vanilla headliner and fawn carpet.

The April 2005 exterior was refreshed in January 2006 with overall Matterhorn White with Carmel, Twilight and Vendetta Red stripes.

This Australian registered aircraft is gravel capable and is the ideal light jet that combines high cruise speeds, overall performance with a spacious cabin.
